**About Biocartis**

Biocartis (Euronext Brussels: BCART) is an innovative molecular diagnostics (MDx) company providing next generation diagnostic solutions aimed at improving clinical practice for the benefit of patients, clinicians, payers and industry. Biocartis' proprietary MDx Idylla™ platform is a fully automated sample-to-result, real-time PCR (Polymerase Chain Reaction) system that offers accurate, highly reliable molecular information from virtually any biological sample in virtually any setting. Idylla™ addresses the growing demand for personalized medicine by allowing fast and effective treatment selection and treatment progress monitoring. Biocartis launched the Idylla™ platform commercially in September 2014 together with its first test to identify BRAF mutations in metastatic melanoma. In June 2015, the Idylla™ KRAS Mutation Test for colorectal cancer was launched, followed by the first infectious disease test in November 2015, the Idylla™ Respiratory (IFV-RSV) Panel, developed in collaboration with Janssen Diagnostics. Biocartis is developing and marketing a rapidly expanding test menu addressing key unmet clinical needs in oncology and infectious diseases. These areas represent respectively the fastest growing and largest segments of the MDx market worldwide.
